PROFESSIONAL SUMMARY

Detail-oriented and motivated Data Analyst with a strong foundation in data cleaning, statistical analysis, exploratory data analysis (EDA), data modeling, and data visualization. Skilled in transforming raw data into meaningful insights using Python, SQL, Excel, and Power BI. Experienced in building ETL data pipelines, deriving actionable insights, and communicating findings to stakeholders through dashboards and reports. Eager to support data-driven business decisions in a dynamic environment.

TECHNICAL SKILLS

Programming: Python, Git, Version Control

Databases: MySQL, PostgreSQL, SQL Querying, Data Modeling

Data Analysis: Pandas, NumPy, Microsoft Excel (Pivot Tables, VLOOKUP), EDA, Statistical Analysis, Data Cleaning, ETL

Data Visualization: Power BI, Matplotlib, Seaborn, Dashboard Design

Tools: GitHub, Jupyter Notebook, MS Excel

Operating Systems: Windows, Linux

INTERNSHIP EXPERIENCE

Data Analyst Intern — Rubixe AI Solutions

- Collected, cleaned, and preprocessed large datasets to ensure data quality and consistency, reducing data errors by 25% through systematic identification and resolution of null and duplicate records.
- Performed Exploratory Data Analysis (EDA) and statistical analysis to uncover trends, patterns, and actionable insights from complex datasets.
- Built interactive dashboards and data visualizations using Power BI and Matplotlib to communicate findings to stakeholders, improving reporting efficiency by 20% through dashboard automation.
- Identified key factors driving service demand, contributing to a 30% improvement in resource allocation through data-driven recommendations.
- Developed automated ETL data pipelines to streamline data collection and transformation, translating insights into clear business recommendations for the team.

PROJECTS

E-Commerce Customer Segmentation

Tools: Python, Pandas, NumPy, Matplotlib, Seaborn, Jupyter Notebook

- Analyzed 500K+ transaction records using the RFM (Recency, Frequency, Monetary) model to segment customers into 4 distinct groups, enabling targeted marketing strategies that improved customer retention analysis by 15%.
- Cleaned and transformed raw data using Pandas and NumPy; applied statistical analysis and visualized insights with Seaborn and Matplotlib to identify high-value customer patterns.
- Delivered actionable insights supporting loyalty programs, resulting in improved data-driven business recommendations.

Zepto Product Intelligence — SQL & Excel Analytics

Tools: PostgreSQL, Microsoft Excel, CSV

- Analyzed 3,700+ product SKUs across 14 categories using PostgreSQL, performing end-to-end data cleaning, revenue estimation, discount analysis, and product segmentation to generate actionable insights.

- Wrote 8 business-focused SQL queries covering price-per-gram value, out-of-stock risk analysis, weight segmentation, and category-level statistical insights; identified the top 10 discount opportunities, saving up to 51%.
- Built a 4-sheet Excel dashboard using pivot tables to visualize category performance, top discounts, and premium product intelligence across 3 markets (US, Ireland, UK), aiding data-driven inventory decisions.

EDUCATION

Master of Computer Science — Savitribai Phule Pune University (2024 – 2025) | CGPA: 8.05 (Grade A)

Bachelor of Computer Science — Savitribai Phule Pune University (2019 – 2023) | CGPA: 7.32 (Grade A)

HSC (12th) | 65.23%

SSC (10th) | 83.60%

CERTIFICATIONS

- Certified Data Scientist — International Association of Business Analytics (IABAC)
- Certified Data Scientist — Ministry of Electronics and Information Technology, Govt. of India
